

Lok Sanjh's Contributions to Nature

Women Empowerment:

Lok Sanjh has made significant strides in empowering women by involving them in the development of plant nurseries. In Chakwal, 400 women are engaged in kitchen gardening utilizing regenerative agriculture techniques.

Biodiversity Enhancement: Recently, Lok Sanjh has distributed 1,000 plants in Islamabad and 4,000 plants in the Chakwal region, contributing to local biodiversity efforts.

Regenerative Agriculture Techniques:

Lok Sanjh have worked on converting 6,000 acres in Layyah and 6,000 acres in Bahawalpur to regenerative agriculture, aiming to enhance carbon sequestration and promote sustainable agricultural practices in both regions.

Farmer capacity building

Additionally, Lok Sanjh is building the capacity of farmers in 50 villages by developing their skills in regenerative agriculture.
